***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372:

Group I, claim(s) 1-36 and 52-56 drawn to a method of analyzing pointers in a program and enhancing pointer analysis, classified in class 717, subclasses 124+ and 152.

Group II, claim(s) 37-51 drawn to a specific method of graphing variables in a program, classified in class 717, subclass 156.

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because invention I is a general method of analyzing pointers in a program and enhancing pointer analysis, whereas invention II is a specific method of graphing variables in a program on a flow graph for the purposes of enhancing pointer analysis. The subcombination has separate utility such as graphing variables, and finding connections between the variables.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2122

5. A telephone call was made to Tim Sullivan on November 25<sup>th</sup>, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth A Gross whose telephone number is (703) 305-0542. The examiner can normally be reached on Mon-Fri 7:30-5.
